- **Movers and shakers in their communities,**
- **Passionate about community wellbeing and the power of the arts – especially singing, and**
- **Aspiring to produce meaningful change and create a more fair and caring society.**

If this is you - Creativity Australia have further grants of up to \$10,000 available now!

Local community groups, social businesses and not-for-profits wanting to promote social inclusion and tackle loneliness, isolation and disadvantage in their community are invited to apply. Additionally, each successful application joins a 12-month intensive mentoring program.

All successful Start-up Grant organisations are located in areas that are diverse in culture and nationality and seek to redress balance between those that have and have not. They all provide crucial interventions for all people and support to those directly and indirectly affected by many of life's challenges.

Most importantly, these organisations recognise how singing in a group can be transformative, inspire personal growth, and each presented a strong social franchise offer that will be successful and sustainable. The choirs will create new social connections and extend opportunities for all living in these multi-cultural communities to participate and develop social cohesion.

Founder & CEO of Centre for Hope, Geraldine Moran, our first successful applicant from Round One, says "*With One Voice* perfectly encapsulates the unity we want to create for our community. Mentoring is such a powerful tool, and through the *With One Voice* mentoring program we are learning quickly, safely and in a supported manner." [View member stories.](#)

About us

Creativity Australia (www.creativityaustralia.org.au) is building a happier, healthier, more inclusive nation. We bridge the gap between people experiencing disadvantage and those more fortunate through the neuro-scientific benefits of community singing. We build supportive networks that help people connect to brighter futures. Together, we can change the world... one voice at a time. Creativity Australia is a charity founded by award-winning social entrepreneur and soprano Tania de Jong AM.

Creativity Australia has been recognized as one of the top social innovations (Anthill) in Australia for the past 4 years and, received the Melbourne Award 2016 for Contribution to Community by a Community Organisation.

Why we sing

Neuroscience proves singing makes people happier, healthier, smarter and more creative. Through uniting more and more communities in song, Creativity Australia aims to create positive outcomes for people experiencing mental illness, disability, disadvantage, unemployment or homelessness. Please be inspired by [Creativity Australia's Founder Tania de Jong's TEDTalk](#) on 'how singing together changes the brain'.

The impact of loneliness and depression on our health

Research has found that lacking social connections is as damaging to our health as smoking 15 cigarettes a day and people experiencing social isolation have an average of 29% increased mortality (Holt-Lunstad, 2010 & 2015). Furthermore, 8 in 10 Australians think our society is becoming lonelier, while 6 in 10 say they often feel lonely (Lifeline 2016).

Our impact

Swinburne University evaluation showed 98% of *With One Voice* choir participants experienced less stress, 91% improved social bonds, 66% felt less depressed, 70% gained new skills for work life and 70% gained increased understanding & appreciation of diversity.

Creativity Australia received the 2016 Melbourne Award for our Contribution to the Community. The program has also been named in Anthill's SMART 100 most innovative organisations for the past 5 years.
